

The Town is updating its Comprehensive Plan and is asking residents to think about the community's future and the role they play within it. The Comprehensive Plan acts as the blueprint for development within the Town, guiding decisions on land use, transportation, economic development, housing, and the environment.

Throughout 2023, the Comprehensive Plan will be reviewed to identify areas that need to be updated. Please check back to this website for updates. Comments or questions about the plan or related materials can be sent to clerk@town.saukville.wi.us.
